CAREER OBJECTIVE

Aspiring software engineer with strong expertise in Java full-stack development, Python. Eager to contribute technical and problem-solving skills to impactful engineering projects.

EDUCATION

B.Tech - Information Technology — **2023-Present** — CGPA: 8.68
KKR G KSR Institute of Technology and Sciences

Intermediate (MPC) — **2021 -2023** — 65.5%
Narayana Junior College, Guntur

SSC (Secondary School Certificate) — **2020-2021** — GPA: 10.0
SIMS My School

TECHNICAL SKILLS

Programming Languages: Java, Python, C
Web Technologies: HTML5, CSS3, JavaScript, Java Full-Stack Development
Database Management: SQL, Relational Databases (RDBMS)
Developer Tools G Platforms: VSCode, Eclipse IDE, GitHub, Git, MS Office Suite
Core Concepts: Data Structures GAlgorithms, OOP, Software Engineering

PROJECTS

OmniTriage AI - Intelligent Healthcare Assistant *Full-Stack/AI*

- Engineered a patient-facing intelligent assistant designed to evaluate medical symptoms, assess potential urgency, and organize medical details prior to doctor consultations.
- Replaced anxiety-inducing online search results with structured, safety-first clinical guidance.
- Implemented user-friendly workflows ensuring seamless navigation and privacy-conscious data collection.

Bidzilla - Online Auction Platform *Full-StackApplication*

- Architected a feature-rich web platform enabling secure user authentication, product cataloging, and live bidding.
- Integrated responsive frontend views with database tracking for smooth auction management and transaction visibility.

KITS Club Portal *WebApplication*

- Developed and deployed a centralized hub for managing college clubs, schedules, and student event registrations.
- Improved overall student engagement and simplified administrative coordination across campus event teams.

CERTIFICATIONS

- **Programming in Java** - NPTEL Certification
- **UI/UX Designing** - Make Skilled Training
- **Java Full Stack Development** - Make Skilled Training
- **Virtual Internship Credentials** - AWS / Zscaler / EduSkills

VIRTUAL INTERNSHIPS

Generative AI Virtual Intern *AWS(Amazon Web Services)*

- Explored foundation models, prompt engineering methodologies, and Generative AI service integrations on cloud infrastructure.

Networking Virtual Intern *Zscaler*

- Studied Zero Trust Architecture, secure web gateways, internet access controls, and cloud network defense protocols.

Cloud Virtual Intern *EduSkills*

- Gained fundamental understanding of cloud computing models, virtual server deployment, and resource orchestration.

AI Application Intern *AppGenisys*

- Assisted in building functional AI components and exploring real-world application pipelines for intelligent systems.

KEY ACHIEVEMENTS & EXTRA CURRICULLAR

- **Live Web Deployment:** Built, documented, and successfully deployed a live college website accessible online for campus communication.
- **Academic Excellence:** Consistently ranked among top performers with an 8.68 CGPAin B.Tech, 65.5% in Intermediate, and a perfect 10.0 GPAin SSC.
- **Event Anchor G Host:** Hosted official college club events and student activities, demonstrating strong public speaking and communication skills.
- **Fest Volunteer G Initiatives:** Actively coordinated event logistics and participant registration during annual college fest programs and peer collaboration drives.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
